

c. 10,000 yrs ago = 8000BC

(Folsom Man (later than)  
(Llano man) hunted great  
bison (9 ft tall)

They used a notched stick  
called ATLATL to add power  
to spear throwing.

10,000 yrs ago = 8000 BC

3 large boulders roughly  
carved to look like human  
heads.

Found in a gravel pit near  
MALAKOFF in Northeast TX.  
also found were bones of mastodon,  
mammoth, a type of small horse,  
Camel, ground sloth

10,000 yrs ago = 8000 BC

Other participants in the worldwide boom of 10,000 yrs ago were fisherfolk equipped with canoes, harpoons, and nets, who followed the teeming Kuroshio current out to sea on prolonged fishing trips, supplemented their diet from the forest, cooked their food in fire pits, and lived in permanent homes.

10,000 yrs ago = 8,000 B.C.

The rising level and improved rainfall trans-formed intermittent torrents into generous rivers that plastered their banks with silt at flood times, thus controlling weeds and preparing the soil for easy riverside cultivation. Humanity's main crops were domesticated in an impressive worldwide roll call; rice in Indochina, sugar cane in New Guinea, millets in Africa and China, beans and maize in

the Americas. Altogether about twenty major crop plants came into cultivation in 7 to 10 distinct regions, between 10,000 (8,000 BC) and 7,500 yrs ago (5500 BC). In each center of origin women gardeners, no longer as bear and well exercised as their gatherer grandmothers, found themselves cursed with frequent menstruation and batis galore.

8000 BC

Agriculture began in Near  
East  
Sheep and cattle domesticated

8000-7000 BC

Potatoes are domesticated in Peru,  
Pumpkins in middle America;  
beans are cultivated in Peru  
and rice in Indochina. Floodwater  
agriculture is used in the  
Nile valley and in southwestern  
Asia

c 8000 BC → c 7000 BC

until the final retreat of the ~~glaciers~~

10,000 yrs ago, the Sahara was  
covered not with sand but  
with Savanna

800 BC

### Jericho

A permanent settlement of some 2000 people has been established just beside the spring of Fines-SULTAN.

Its irrigation system and the large tower and defense wall imply a social organization that justified Jericho's title as the oldest city in the world.

870 BC

The proto - Hittite village  
Dargina underwent a ~~specialized~~  
development around 870 BC  
there had been a small  
village there for 1000  
centuries previously.  
The new town (870 BC) was  
built with heavy stone blocks  
on round or oval stone foundations.
